Introduction

Published bi-monthly, the Liberia Financial Statistics (LFS) is one of the primary sources of statistical information published by the Central Bank of Liberia (CBL) on the Liberian economy. The usefulness of the LFS over the years is to the public and private sectors, specifically, academicians, policy makers, students and the business community.

This publication is the 2nd edition of 2016, which contains data from January, 2014 to April, 2016, and covers the four sectors of the Liberian economy: monetary, real, fiscal and external. The graph on the cover and inside pages shows trends in export receipts and import payments dating from May 2015 to April 2016.

The CBL is grateful to its data providers whose tireless efforts and commitment have made the publication of this bulletin possible. The CBL hopes that such cordial relationship continues to exist as we strive towards achieving improved and reliable data compilation and dissemination to our readers.

The Harmonized Consumer Price Index (HCPI) is an amalgamation of the Classification of Individual Consumption by Purpose (COICOP), consisting of twelve functions (major groups) together with the Monrovia Consumer Price Index (MCPi) and its weights obtained from the 1964 limited expenditure survey. The Survey sample comprised wage-earner and clerical-employee households of two or more persons with monthly income not exceeding US\$250.
